About Us.

PT. Supra Raga Transport (SRT) was established in October 1989, with its main business being to handle relocation services both for domestic and international purposes, to support these performance. SRT is supported by several branch offices located in various major cities in Indonesia. Supra Raga Transport has employees who are very experienced to run every task that is running well and precisely.

To support this, SRT is committed in providing high-end moving services to its customers. Various efforts to meet the standardization, SRT has been certified ISO and OHSAS since 2008 as proof of our seriousness in prioritizing the quality of the work on the transfer and relocation services.

SRT also handles packing, transportation, distribution and logistic services for both national and international institutions as well as leading companies. This is a bit of a description of what we can try to describe our readiness to attend and complete the process of moving the existing embassy office. We are grateful for the opportunity that has been given. SRT also does not close the possibility to discuss in launching the performance process that will be done to facilitate the process of the transfer.

Thank you

Our Services

Domestic/International Packing of Personal Effects

Supra Raga Transport (SRT) provides professional packing services to ensure that personal belongings are handled with care and delivered safely, whether for moves within Indonesia or to destinations worldwide.

Domestic Packing (within Indonesia)

- SRT uses quality packing materials such as cartons, bubble wrap, and protective layers.
- Furniture and fragile items are wrapped, cushioned, and secured for safe handling.
- Transport is arranged by road, sea, or air freight depending on the location.
- Suitable for city-to-city relocations, home moves, and local transfers.
- Simpler process: faster transit, minimal paperwork, lower cost.

International Packing (overseas shipments)

- Uses export-standard, sea/air-worthy packaging: moisture-proof wrapping, wooden crating, and reinforced boxes.
- Preparation of a detailed inventory list to meet customs requirements.
- SRT provides customs clearance assistance for export/import processes.
- Transit via sea freight (containers) or air freight, depending on urgency.
- Comprehensive insurance coverage for global moves.
- Suitable for expatriates, diplomats, corporate relocations, and overseas families.

Our Services

Office Move/Relocation

Supra Raga Transport (SRT) offers specialized services for office moves and corporate relocations, ensuring minimal disruption to business operations and maximum care for valuable assets.

1. Pre-Move Planning & Survey

- On-site survey to understand the scope of the office move.
- Mapping out furniture, IT equipment, documents, and workstations.
- Customized relocation plan to fit company timelines and requirements.

2. Professional Packing & Handling

- Secure packing of office furniture, electronics, and sensitive equipment.
- Use of protective materials and crates for fragile or high-value items.
- Labeling system for easy identification and efficient reinstallation.

3. Transportation & Logistics

- Organized transport by road or combined logistics solutions.
- Coordination to ensure a smooth, step-by-step move without delays.
- Option for weekend or after-hours moves to minimize disruption.

4. Unpacking & Setup

- Careful unloading and placement of furniture at the new site.
- Reassembly of workstations, cabinets, and office equipment.
- Support in setting up the office layout according to the client's request.

5. Added Value

- End-to-end service: planning, packing, moving, unpacking, and setup.
- Experienced team in handling sensitive office assets.
- Flexible scheduling to match business needs.
- Trusted partner for corporate clients, embassies, and multinational companies.

SRT ensures office moves are efficient, organized, and stress-free—so companies can focus on business, not the logistics of relocation.

Our Services

Domestic & Export-Import Auto Handling

Supra Raga Transport (SRT) provides specialized logistics solutions for the safe handling, transport, and delivery of vehicles—both within Indonesia and internationally.

Industrial Packing

Supra Raga Transport (SRT) specializes in industrial packing services to ensure the safe handling and transportation of heavy, oversized, and sensitive industrial equipment for both domestic and international shipments.

Heavy Cargo Handling

Supra Raga Transport (SRT) provides specialized heavy cargo handling services to safely manage, transport, and deliver oversized and overweight shipments for both domestic and international projects.

OUR CLIENT.

We participate in helping clients both locally and globally, and have

handled some companies that even have a strong international network. Supra Raga Transport puts customers in their business centers to assist from any aspect that is wanted from the distribution, moving or shifting of goods either nationally or between countries.

SRT helped to make some efforts to make the distribution process better in an efficient and precise way. Here are some of the big companies that have been entrusted to work with Supra Raga Transport (SRT) in the period we've been in since 1989

OUR CLIENT.

Packing Materials.

We, PT. Supra Raga Transport thank you for your inquiry and would like to offer our experienced moving service. With this literature sheet, we explain how to move, how to pack and how to classify. The most important thing is classifying each goods such as documents, files, furniture item's, delicate item's, clothes, painting & artwork, electronic, glass item's, special care & protection etc, because the unpacking job is more difficult than the packing job.

To minimize confusion caused from unknown contents, each carton will be given specific markings and labellings. This is not an easy task and takes much effort, but by doing this job we save much time after locating. Also, packing job for fragile goods, ornament, electronic machines & computers, we focus most attention to packing and the carton box is stronger than usual one we always see at our office. The other materials like bubble pack sheet, packing paper, packing partition, Styrofoam we selected are used for safety packing. We also have trucking safety operations. The drivers are experienced and operate many years with all major company and surely they adapt well for traffic rules. Our drivers have much extra obligation and power to do loading and unloading from their truck. We are looking forward to receive your order soon after you read this offering carefully.

Carton sheet rolls are used to pack items that are larger or not square shaped. This carton sheet roll can also be used to protect the floor during the packing process to avoid any damages that may occur on the floor.

CARTON SHEET ROLL

Vehicles & Trucking.

SRT will provide all vehicles necessary for the performance of Relocating Process. All vehicles will be kept in safe operating condition at all times with a valid safety inspection sticker attached if required by local law. SRT will provide driver, fuel and lubricants for the vehicles.

Fleets.

Colt Diesel Engkel Long (CDE L)

The size is slightly larger than an auto truck, can load volume of +12 cbm and a maximum load weight of 4-6 tons.

Colt Diesel Engkel Long (CDE)

One of the popular commercial trucks in Indonesia. Its carrying capacity of up to 4 tonnes makes it a favorite among businesses sending heavy and bulky items.

Luggage Van

Are the smallest type of truck. they only have 2 axes and 4 wheels. On average, Luggage van has maximum volume of 3 cbm and a maximum load weight of 1 ton.

Fleets.

Mail Van

Mail Van has a capacity of 4 cbm or around 1.5 tons. Usually used to carry small items or letters/documents. Sometimes it can be used to transport relatively light and small household items.

Single Carrier Towing

Car and Motorcycle single carrier (Towing Car) really helps point of view customers transfer performance. Also they can travel between cities as you wish.

Forklift

Forklift 2.5 ton fleet which is very helpful in performance in the warehouse can lift a load of 3 tons.

SRT Warehouse Facilities

Has a land area of around 6.000 m² with a building area of 3.000 m². SRT warehouse has a 9 meter ceiling and consists of two floor with the 2nd floor as office space. The SRT warehouse parking lot is very wide allowing large trucks to enter freely. There are 2 cool rooms with spacious space. Complete MESS crew. CCTV in all areas of the warehouse and 24 hour security
