Procedure for transport of goods to and/or from DSV's facilities on Mossvej in Horsens, Denmark

We look forward to welcoming you at Mossvej in Horsens

With PASS on Point gate access control we offer high security, minimal waiting times and even better resource management.

Gate access control to our facilities on Mossvej via PASS on Point

Getting operational at our new site in Horsens includes introduction of gate access control for all vehicles.

All vehicles which shall deliver goods to or pick up goods from Solutions' warehouses at Mossvej in Horsens will only be able to get access via the gate at Mossvej 27.

Getting access requires that a booking of the desired time slot has been made in advance in PASS on Point which is the system DSV uses for gate access control.

As a result, the arriving vehicles will gain swift and secure access, the stated loading dock will be available, and personnel will be ready to load or unload the goods. Waiting times and the use of resources will thus be kept to a minimum.

About PASS on Point and how to get started

Everyone with goods destined for Mossvej in Horsens must book their desired arrival time (time slot) in advance.

When you/your company has been registered, you may add more users who shall also be able to book time slots.

Subsequently, the registered users may book time slots which will be confirmed by email including the pin code required to open the gate on arrival at the premises plus the assigned loading dock.

To make a booking requires your company name, the vehicle's license plate, order number, number of pallets etc., enabling us to allocate the required personnel and equipment (forklifts etc.) and ensure minimal waiting times for all parties.

It will be agreed with each user how long before a vehicle's arrival bookings may be made.

The registered actual arrival and departure times may be shared with users of the system and thus provide data for KPI statistics.

How to get started

Go to <https://dsveurope.passonpoint.com/> and follow the attached Quick Reference Guide to get registered and, subsequently, to book time slots.

If assistance is required, please reach out to your usual contact at DSV.
