

## LOCAL & NATIONAL MOVES

Delahaye Moving stands for consistent quality.

Whether you are moving to the other side of the country or just a few miles away, we will make every effort to provide you with industry-leading service.

Your Move Coordinator will assist you in planning every aspect of your move and will be there to introduce the Delahaye Moving team on the day of your move.

All instructions will be reviewed with the team foreman before packing commences and your belongings will then be packed with care, using the best materials available to ensure that everything is well protected. Fragile items will be placed in made-to-measure crates to avoid damage during transport.

Should packing last more than one day we will ensure that you have everything you need for a comfortable overnight stay.

On arrival at your new home our team will set up your furniture and unpack everything onto a flat surface, or into your cupboards with our Maid Service.

## INTERNATIONAL & OVERSEAS MOVES

Delahaye Moving enjoys a worldwide reputation for consistent quality.

Your International Move Coordinator will assist you in planning every aspect of your relocation and will be there to introduce the Delahaye Moving team on the day of your move. All instructions will be reviewed with the team foreman before work commences and your belongings will then be packed with care, using the best materials available to ensure that everything is well protected. Fragile items will be placed in made-to-measure crates to avoid damage during transport.

Should packing last more than one day we will ensure that you have everything you need for a comfortable overnight stay.

Before your shipping container is packed, our team will line it with cardboard. It will then be sealed and we will track it all the way to its destination, keeping you informed of progress along the way.

As an independent mover we can choose the best agent to ensure continued service. On arrival at your new home our agent will set up your furniture and unpack everything onto a flat surface, or into your cupboards with our Maid Service.

## ARTS & ANTIQUES

Delahaye Moving now offers the benefit of our removals experience for the transportation of special goods and objets d'art.

Antiques, sculptures, paintings, grand pianos... wherever in the world you buy them, we'll be happy to ship them to their final destination. Fine wines require special care in transport, and our teams always use the best packing materials available, including isothermic cartons.

Innovation is important but trust is always the number one component. That's why, when it comes to moving precious pieces, generations of our customers always return to Delahaye Moving.

## CUSTOMS

Moving between countries can be a daunting process. However, your International Move Coordinator will be there to assist you all the way and help complete the correct documentation to clear through customs, without duties or taxes.

Modern technology allows customs to scan a container's contents without opening it, but countries without such advancements often have a reputation for opening all containers holding domestic contents. If an irregular item is identified, an otherwise straightforward moving process can turn into a lengthy and complicated one.

A swift transfer through customs starts with good preparation ahead of your move and during packing, which is why our moving teams mark all boxes clearly and carefully describe their contents on the inventory.

Depending on your destination, there may be some restrictions on alcohol, religious items or on pictures that local customs judge to be 'indecent'.

Your International Move Coordinator will advise you on the rules that are applicable to your relocation.

## STORAGE

Delahaye Moving offers storage for all your needs, from standard household goods to antique furniture, paintings, sculptures and dedicated wine cellars.

We have our own storage facilities in London, Paris and Nice, all of which are under permanent video surveillance and offer temperature controlled storage services.

### WINE STORAGE

Our warehouses are equipped with temperature and humidity-controlled wine cellars.

Delahaye Moving offers a number of services, depending on individual customer requirements. We can simply store your wine for any period of time, or deliver it on request to your residence or yacht.

Collection and reception of new wines at our warehouses offers all-round flexibility, and we'll be happy to help you with the on-line management of your cellar inventory.

### FINE ART STORAGE

The handling, packing and shipping of fine art pieces requires precise care and specialist know-how.

With temperature controlled warehouses available and 24 hour security arrangements, Delahaye Moving has been leading the way in this sector for over 30 years.

### BONDED WAREHOUSE

In addition to our standard storage facilities, we also have our own bonded warehouse in Nice where we can store any item without the need to import it into the EU.

With temperature control and round the clock security, the warehouse provides the perfect environment for storing antiques, fine art and wine.

## OTHER SERVICES

### PET RELOCATION

Not all destinations allow you to take your pets with you on your flight, especially when moving to other continents.

In such cases, Delahaye Moving can provide you with pet relocation services, taking care of the necessary paperwork and ensuring their wellbeing for the duration of their journey.

### CLEANING

It's always a good idea to have your new home professionally cleaned before you move in, or indeed your old place when you move out.

Delahaye Moving will happily arrange this for you. Our providers are always selected for quality of service and care.

### HANDYMAN

Whether you are moving in or out, our handyman can assist with hanging or disconnecting your chandelier, putting up your curtain poles and (re)connecting all your hifi and TV equipment.

When moving out, our handyman will be there to help you with any post-tenancy services that may be required prior to check-out with your landlord or estate agent.

### PICTURE HANGING

An art in itself, picture hanging requires a good eye and a steady hand. We'll be delighted to provide you with specialist help for the very best results in your new home.

## MARITIME REMOVALS AND YACHT STORAGE FACILITIES

Delahaye Moving also provides maritime removal services. With our strategically placed warehouse in Nice, we serve the entire Cote D'Azur and Genova.

We work with some of the world's leading yacht management companies to provide a uniquely tailored service for yacht owners and their captains.

Using our own specialised packing materials and knowhow gained from over 30 years experience, our team provides the very best care and protection for personal and valuable objects that need to be removed and stored during refurbishment, or while the yacht is being chartered in the high season.

The Delahaye Moving team will also create an inventory, so

that everything is returned in the same condition and in the right place. A cleaning and restoration service is available for objects while they are ashore.

We also offer storage facilities for items not required during the season and storage for crews' personal effects.

In addition to the storage facilities at our Nice warehouse, we have a bonded warehouse where we can store items without the need to import them into the EU, thus avoiding having to pay VAT and import taxes.

Delahaye Moving can provide international shipping and transportation for all items that the owner or captain may require to transport between properties and /or yachts, both locally and internationally.
