- When client does not have his town/city hall registration yet, client may also submit a proof of deregistration from the country of origin. Please also supply one of the following documents:
 - Copy of a work contract or declaration from the employer confirming the period of working for them abroad and will now be working for them in the Netherlands as from (date),

OR

Copy of a rental agreement or purchase contract of the residence in the Netherlands. This may not be older than 6 months.

Specific Information

- The “Bewijs van aanmelding” is the certificate from the population register of the municipality showing owner of the goods’ intent to reside in the Netherlands
- The Netherlands application is a required form that must be filled out to be able to move to the Netherlands
- All fumigated containers arriving in the port of Rotterdam or Antwerp with an excessive concentration of gas will be removed from the logistic transport chain.
 - Delays may take several months before the container is released.
 - High costs may be incurred due to any delays.
- The following conditions must apply for the duty-free import of the household effects shipment:
 - The permanent residence of the owner of the goods must be the Netherlands or another European Union member country.
 - The previous permanent residence of the owner of the goods situated outside of the European Union for at least 12 months.
 - All goods have been used as part of the normal household of the owner of the goods and will be used for the same purpose.
 - All goods have been in the owner of the goods’ possession for at least 6 months and have been used during that time.
 - The goods will be imported into the Netherlands within 12 months after registration.
 - The goods will not be sold, rented off or given away within 12 months after registration in the Netherlands.
- Owners of the goods must apply to Customs for the exemption in the import declaration.
 - The following documents are required:
 - A signed inventory listing all of the personal goods in the shipment.
 - The certificate of registration in the personal records database of the municipality in the Netherlands.

- Must certify that the date on which the owner of the goods has established in the Netherlands or another country within the European Union.
- Owner of the goods can also send comparable documentary evidence demonstrating that this is the case.
 - Employment contract
 - Employer statement
 - Work permit
 - Rental contract or mortgage certificate for new place of residence
- All containers arriving in the Port of Rotterdam with an excessive concentration of gas will be taken out from the logistic transport chain. (Methyl bromide is mostly used toxic gas).
- According to the Ministry one may expect delays running up to several months before a fumigated container finally will be released to the consignee. Obviously high costs will be involved if a container has an excessive concentration of gas.
