NOTES

Importation of a vehicle is possible only in case the vehicle possesses original EUR 3 document or COC Certificate (Certificate of Conformity). EUR 3 document (engine certificate) or COC Certificate can be obtained from producer of the car at place of origin or authorized dealer as per concerned engine number and chassis number of the vehicle. With this certificate, copy of registration card of the vehicle and copy of the owner's ID card, we will apply for the import permit for the concerned vehicle to our Institute of Standardization who is authorized for issuing mentioned document. It should be applied for the import permit at least 2 weeks before forwarding the car to Serbia.

As per Serbian customs regulations, it is not possible to import vehicles produced in the USA. The only way to import is to obtain certificate from Agency for Traffic Security which can give the permission. This procedure can take 3-4 weeks and copy of the vehicle registration card is required for application process. This rule is not applicable for foreign diplomats.

Right-hand drive vehicles cannot be registered in Serbia.
